4 GOOD REASONS FOR HANDLING COMPLAINTS BY LONG DISTANCE

You can talk over matters at once promptly often prevents loss of a customer.

You can build closer relations with customers.

You can use tact in delicate situations. And because men talk more freely than they write, you can frequently trace the real reason for the complaint and prevent similar complaints in the future.

Don't forget to plan for
concealed telephone conduit
and convenient locations
for telephone outlets
when you build your new
home. These built-in tele-
phone facilities add real
value to a home yet their
cost is very small if they
are installed during
construction.

Keep watching the dial . . .
and you'll dial accurately.
Remember to pull the
finger all the way to the
stop . . . let the dial return
at its own speed. Speeding
up or slowing down the
dial's return may interfere
with perfect operation of
the equipment for you.

LOW TEMPERATURE
Always fry eggs at a low tempera-
ture, preferably in a heavy pan
because heat is distributed more
evenly.

**PLEASE
DIAL
CAREFULLY**

Careless dialing puts other
people to needless bother—
and delays your call. Please
make sure of the right
number, listen for the dial
tone, then dial carefully.

UTENSIL TIP

Nonstick kitchen utensils, especially bakeware, should be oiled before the first use to condition the surface. One method is to wipe the surface with a paper towel soaked in salad oil.

**IT'S IN YOUR
BEST INTEREST
TO CHECK FIRST**

If you plan to build or have to excavate, you can avoid accidental damage to cables by checking first.

Before digging starts, Dial "0"
Zero & ask for Zenith 07128
(No Toll Charge)

For your own protection and your neighbours', it pays to make sure you are on "safe ground." A severed cable may put hundreds of telephones out of service.
