Two friendly telephone habits . . . quick to answer when your telephone rings; slow to hang up when you call someone who does not immediately respond. When calling others, remember that the called person may be almost there . . . so wait a few seconds longer.

To prevent apples from sticking while cooking them, start them with boiling water rather than cold.

**IT'S IN YOUR BEST INTEREST TO CHECK FIRST**

If you plan to build or have to excavate, you can avoid accidental damage to cables by checking first.

Before digging starts, Dial "0"  
Zero & ask for Zenith 07128  
(No Toll Charge)

For your own protection and your neighbours', it pays to make sure you are on "safe ground." A severed cable may put hundreds of telephones out of service.

**4 GOOD REASONS FOR HANDLING COMPLAINTS BY LONG DISTANCE**  
You can talk over matters at once. Promptness often prevents loss of a customer.  
You can build closer relations with customers.  
You can use tact in delicate situations. And because men talk more freely than they write, you can frequently trace the real reason for the complaint and prevent similar complaints in the future.
