"YELLOW PAGES" ARE READ

"I Just Can't Believe Funerals Cost So Much!"

When you're faced with the death of someone close, we don't want the cost of final arrangements to add to your distress.

That's why you need to think twice before assuming the "traditional" way is the only way. You do have "alternatives" and you should certainly make informed choices.

What you really need at this time is plain talk that demystifies the process, spells out options in a factual way, reduces the costs, and gives you real control over the decisions to be made.

When you're in control, you make better decisions. And we also know a funeral home is the last place you want to visit. It can leave you feeling uncomfortable and vulnerable. That's why Personal Alternative® always comes to your home to make the arrangements. While the home visit provides an obvious convenience to

your family, it further ensures you avoid the commercial pressure to spend beyond your needs.

Personal Alternative® Funeral Services is a well established and fully licensed funeral provider. And, we operate our own crematorium.

Although we're much more affordable than the "traditional" funeral home, less costly doesn't mean less considerate. It just means we've found a more realistic way to provide service. We offer real choice, and every choice is substantially more affordable - everything from simple cremation without a service to a complete funeral and burial.

We're highly recommended by clergy, health care providers, social workers and other professionals.

So, before you make any decisions, call us. We'll provide costs and options over the phone.

Don't forget to plan for concealed telephone conduit and convenient locations for telephone outlets when you build your new home. These built-in telephone facilities add real value to a home yet their cost is very small if they are installed during construction.
