## Calling 9-1-1

Each year, in Canada, over three million calls are made to emergency services by cell phone Samaritans. When calling 9-1-1 in an emergency situation, here are some tips to keep in mind:

1. Advise the operator you are speaking on a cell phone.
2. Give the operator your 10-digit cell phone number, along with your full name.
3. Provide your exact location. If you don't know the exact location of the incident, try to mention landmarks or highway signs in the area.
4. Stay on the line until the operator says it is ok to hang up.
5. After you've hung up, leave your cell phone on in case the operator needs to call you back.
