

AREA CODES and TELEPHONE NUMBERS help speed all long distance calls

Time-saving hint for long distance calls placed through the Operator: the same Area Codes needed for Direct Distance Dialing also help speed calls your Operator handles for you.

Giving her the Area Code along with the number of the telephone you are calling means faster service . . . no waiting while the Operator looks up the Code or calls the distant city for the telephone number.

The first White Pages of this directory have helpful long distance calling information, a list of cities and their Area Code Numbers.
