NERVOUS?

Some teens who make the high
school scene for the first time
have the nervous habit of lip-
licking. This can produce painful
cracking and chapping. A dab of
petroleum jelly every now and
then will keep lips lubricated.

WASHABLE

Hot water and the type of detergent used in laundering woven woollen fabrics are not the causes of shrinkage of the material. The temperature of the water affects the amount of soil removed; however. Water at 120 degrees F. with a detergent will do a much better cleaning job than at 70 degrees.

KEEP LIGHT FROM MILK

Keep light from milk to prevent loss of riboflavin, its most important vitamin element. If you don't meet the milkman, leave out a covered, insulated box for bottles of milk. Remember that light hurts milk more than heat does in a short time.

CRYSTAL-CLEAR MAINTENANCE ENGINEERING

A NAME THAT SPEAKS FOR ITSELF IN CUSTOM
FRAMEWORK REJUVENATION & WINDOW CLEANING
"IT'S UNWISE TO PAY TOO MUCH"

BUT IT'S WORSE TO PAY TOO LITTLE!"
"When you pay too much you lose a little money — that is all. When you pay too little however, you sometimes lose everything, because the thing you bought was incapable of doing the thing it was bought to do. The common law of business balance prohibits paying a little and getting a lot — it can't be done. If you deal with the lowest bidder it is well to add something for the risk you run. And if you do that you hardly a thing in the world that some men cannot make a little poorer and sell a little cheaper, and the people who consider price only are considered such men's lawful prey!" — John Ruskin

Which Is To Say

"We have no quarrel with competitors who sell for less — after all they know what their services are worth!"

As For Us, Quite Simply

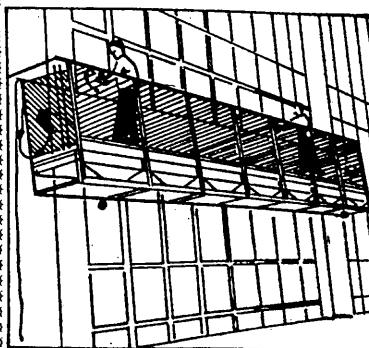

"We're the biggest 'cause we're the best!"
