**PRE-WIRE NOW . . .
FOR YOUR FUTURE TELEPHONE NEEDS**

Planning to build a new home or renovate your old home? Consider PRE-WIRING before you start construction. PRE-WIRING is simply building in extra phone facilities at this stage of planning to allow an adequate number of telephone outlets for future phone extensions. You'll save time, money and the beauty of your home. No unsightly wires strung along baseboards, door frames or walls. You'll have the flexibility needed to arrange and re-arrange your furniture and to add extension phones later, as you need them.

Consult AGT's Architects, Engineers and Builders Consulting Service. They will advise you where telephone outlets should go and how many you may need for up-to-date telephone convenience. Phone 262-8611 in Calgary. Call collect.

**Remember, there's no charge for PRE-WIRING,
so call soon, won't you?**

A HEAVY LOAD

Shoppers each year carry some 1,400 pounds of groceries home for each person in the family. The load, however, is about 100 pounds lighter than it was in the 1940's — partly because of increases in food processing, partly because of changes in consumer tastes.

GARLIC ANYONE?

For those who like only a slight hint of garlic in salads, toss a clove of garlic into a bottle of vinegar. A delightful home-made garlic vinegar is on hand for salad dressings without messy preparation from garlic buds.

TO GET RUST OFF

To remove rust from the corners
of muffin and cake tins, rub with a
raw potato dipped in scouring
powder.
