MORE INSTANT COFFEE USED
 Canadians are drinking less coffee, or at least using fewer beans, than in the late 1940's. Part of the drop is due to introduction of instant coffee during the 1950's. Instant products now make up nearly one-fifth of total coffee consumption.

The most valuable part of the potato-protein and mineral matter is directly under the skin, so to cut thick parings is to throw away good food. It is really better to cook potatoes in their skins.
