## PRE-WIRE NOW . . . FOR YOUR FUTURE TELEPHONE NEEDS

Planning to build a new home or renovate your old home? Consider PRE-WIRING before you start construction. PRE - WIRING is simply building in extra phone facilities at this stage of planning to allow an adequate number of telephone outlets for future phone extensions. You'll save time, money and the beauty of your home. No unsightly wires strung along baseboards, door frames or walls. You'll have the flexibility needed to arrange and re-arrange your furniture and to add extension phones later, as you need them.

Consult AGT's Architects, Engineers and Builders Consulting Service. They will advise you where telephone outlets should go and how many you may need for up-to-date telephone convenience. Phone 261-3311 in Calgary. Call collect.

**Remember, there's no charge for PRE-WIRING SERVICE, so call soon, won't you?**
