It's easier to understand and jot down numbers too, if they are spoken in sequence with pauses between groups of numerals. For instance, in reading aloud the telephone number of our business office, we would say, "Two two four (pause) six two, six one."

Kitchen, bedroom, living room — these are only a few of the rooms where extension telephones will save you steps all day long. They come in a variety of beautiful colors. Just call our telephone business office.

Wise people in buying mood turn to the Yellow Pages of the Classified Telephone Directory. If you have something to sell or a service to offer, tell about it here. Just call the Business Office for information.
