MARBLE STAINS

Most stains on marble are removed best with the application of a poultice. To make a poultice, soak a piece of white blotting paper, white napkin, white cleansing tissue, or commercial whiting in one of the following solutions: for organic stains, use ammonia or hydrogen peroxide in hair bleach strength; for oily stains, an amy acetate or acetone solvent.

PREVENT STICKING

To prevent food from sticking to an electric skillet, wash as usual, then scour with a mixture of soda and salt. Use this treatment several times. Never heat the skillet any hotter than the suggested temp.
