CARE OF IRON

The bottom sole plate of an old iron can be renewed to a glistening, glasslike finish if you'll rub it with some slightly dampened salt and a crumpled piece of paper. This treatment not only smooths scratches, but removes corrosion and starch from the bottom of the iron.

ADD TO SHARPEN
If a recipe calls for sharp cheddar cheese and you only have mild cheese on hand, sharpen up the cheese flavor by adding a bit of dry mustard, pepper and Worcestershire sauce to the recipe.
