Two friendly telephone  
habits . . . quick to answer  
when your telephone  
rings; SLOW to hang up  
when you call someone  
who does not immediate-  
ly respond. When calling  
others, remember that the  
called person may be al-  
most there . . . so wait a  
few seconds longer.

## THERE'S A REVOLUTION GOING ON SELF-HYPNOSIS AND SCIENTIFIC SELF-SUGGESTION

During the past decade, there has been an intense renewal of interest in all branches of medicine, including the applications of hypnotherapy.

The objective is to present sophisticated and useful hypnotic techniques to equip a person for the various problems, experienced in life. Self-hypnosis and scientific self-suggestion reveals a method for achieving well being and peace of mind. You are shown how to switch off unnecessary tensions and how to tap energies you never dreamed you possessed.

You are taught how to turn your unconscious mind into a powerful ally in the struggle for a healthier, happier life; how the body's natural recuperative powers can restore potency to physical, mental and emotional functioning; how to resolve inner conflicts that block the free flow of hidden resources.

By implanting positive suggestion in your unconscious mind, you can effectively eliminate doubt, fear and psychosomatic ailments. Through a series of exercises designed to achieve physical relaxation in progressive steps, nervous energy can be diverted into constructive outlets instead of being channelled off into damaging tensions and negative thoughts and emotions.

The projected end result of these group and individual sessions is to achieve greater mental and physical efficiency within your life, allowing you to become more creative, productive and positive in your attitude and actions so you may confidently progress, knowing you may achieve those objectives in your life without fear, doubt and negative mental blocks.

To quote from Hippocrates: ". . . Nothing should be omitted in an art which interests the whole world, one which may be beneficial to suffering humanity and which does not risk human life or comfort."
