**DANGER?**  
Charcoal fires produce carbon monoxide. In case of rain while doing outdoor cooking, do not drag the charcoal cooker inside a closed garage or porch. The biggest enemy of carbon monoxide is fresh air.

**A HEAVY LOAD**  
Shoppers each year carry some 1,400 pounds of groceries home for each person in the family. The load, however, is about 100 pounds lighter than it was in the 1940's — partly because of increases in food processing, partly because of changes in consumer tastes.

Hunting for a reliable firm? You will find hundreds of them right here in the **YELLOW PAGES**.
