That helps you, helps others, and  
 helps telephone people to do a  
 better job for you.

# **GOOD REASONS TO RECYCLE YOUR OLD TELEPHONE BOOKS**

Old telephone books can be used by the waste paper industry for recycling purposes. Useful products are manufactured from waste paper collected in this province.

Every ton of paper recycled saves approximately 11 - 17 trees, depending upon which type of pulp the recycled paper replaces.

The use of waste paper as a raw material requires less energy in the manufacturing process, than the use of virgin pulp.

Paper recycling reduces the waste disposal costs of our municipality and less material is sent to our landfill sites.

The paper recycling industry provides over 400 jobs in Alberta.

Any waste paper collected which is surplus to local needs, is exported to other countries. This earns valuable foreign exchange for Canada and helps our balance of payments position.

Paper drives and depots provide an important source of revenue for local civic and charitable groups.

Support the following permanent depots by dropping off your old telephone directories as well as old newspapers, magazines, paper grocery bags, cardboard boxes and catalogues. Black metal containers have been placed at each of these locations.
