KNOW YOUR TEA?

A tea taster may be able to identify as many as 1,500 different teas. By examining a dry leaf, he can tell where the tea was grown, sometimes even the estate it came from, what time of year it was plucked, its probable taste and cost.

MORE INSTANT COFFEE USED
Canadians are drinking less coffee, or at least using fewer beans, than in the late 1940's. Part of the drop is due to introduction of instant coffee during the 1950's. Instant products now make up nearly one-fifth of total coffee consumption.
