We could name a lot more, but you get the idea. Sometime within the next few years, you'll probably see rust spots cropping up on your new car.

Ziebart can protect against this.

We don't just undercoat. We get inside the boxed-in sections of your car's body with our nine patented spray tools. We coat vulnerable metal with a unique sealant that actually creeps into welded seams and protects rust-prone areas.

**MORE INSTANT COFFEE USED**  
 Canadians are drinking less coffee, or at least using fewer beans, than in the late 1940's. Part of the drop is due to introduction of instant coffee during the 1950's. Instant products now make up nearly one-fifth of total coffee consumption.

**PAINTER'S TIP**

Professional painters say the correct way to hold a brush is to grasp it comfortably near the handle base. Don't bear down on the brush. Just exert enough pressure to make the bristles flex slightly toward the tip.
