Telephone calls used to be a scream
but today, a normal voice
will do. The difference is improved
transmission—better ways to get your
voice from here to there. Simply
talk in a normal tone of voice into
the receiver and your words will go a
long way.

UTENSIL TIP

Nonstick kitchen utensils, especially bakeware, should be oiled before the first use to condition the surface. One method is to wipe the surface with a paper towel soaked in salad oil.
