4 GOOD REASONS FOR HANDLING COMPLAINTS BY LONG DISTANCE
You can talk over matters at once. Promptness often prevents loss of a customer.
You can build closer relations with customers.
You can use tact in delicate situations. And because people talk more freely than they write, you can frequently trace the real reason for the complaint and prevent similar complaints in the future.

4 GOOD REASONS FOR HANDLING COMPLAINTS BY LONG DISTANCE
 You can talk over matters at once. Promptness often prevents loss of a customer.
 You can build closer relations with customers.
 You can use tact in delicate situations. And because people talk more freely than they write, you can frequently trace the real reason for the complaint and prevent similar complaints in the future.

You'll be MISSED!
 If your ad in the YELLOW PAGES isn't under all the headings that describe your business . . .

Every employee of the telephone company carries an identification card. We suggest that you refuse access to your premises to anyone who represents himself as from the telephone company, but who cannot so identify himself.

LONG DISTANCE APPOINTMENTS SAVE TIME & MONEY
 Avoid wasted trips, Allow better planning of your time.
 Make certain you are expected.
 Avoid long delays in waiting to see people.
 Enable your prospects to prepare for your visits.

4 GOOD REASONS FOR HANDLING COMPLAINTS BY LONG DISTANCE

You can talk over matters at once. Promptness often prevents loss of a customer.
 You can build closer relations with customers.
 You can use tact in delicate situations. And because people talk more freely than they write, you can frequently trace the real reason for the complaint and prevent similar complaints in the future.

Don't forget to plan for concealed telephone conduit and convenient locations for telephone outlets when you build your new home. These built-in telephone facilities add real value to a home yet their cost is very small if they are installed during construction.
