**Your Lips Should Be**  
**A Quarter of an Inch**  
**From the Mouthpiece**

*For  
Better  
Results*

Engineers designed the mouthpiece of your telephone to give the best results at one quarter of an inch from your lips. When your lips are farther away than this, your voice is transmitted less strongly, less clearly.

To make the most efficient use of your telephone, talk clearly, normally and directly into the mouthpiece. Avoid speaking too rapidly, and do not turn your head away from the mouthpiece while talking.

Saves
