# 'Phone Problems in a Nutshell

The current demand for telephone service in Edmonton is the greatest in history. And this demand has followed a period in which telephone development was practically at a standstill, because of wartime regulations set by the Government.

These two factors, coupled with the problem of general shortages, explain "in a nutshell" why it is still impossible to give telephone service to everyone who wants it.

We assure the public that we are doing our utmost, in the face of great difficulties, to bring the telephone situation back to normal.
