It's easy to find the goods or
services you need in these
YELLOW PAGES.

A-B-C-D's FOR SAFER DRIVING

Most schools base driving theory on classroom; we base it on changing traffic patterns, and driver reaction to avoid an accident.

Our course is designed, not by school teachers, not by armchair generals, but as a result of 25 years consultation among leading professional instructors.

We have made information available in a programmed easily understood kit, backed up by audio visual teaching machines. Some insurance companies are genuinely concerned with the rising traffic toll and are making insurance cheaper to those receiving proper instruction. For their benefit we made course content easy to evaluate.

We supply a list of names of insurance firms we know of that reward better training with better rates.

Get your copy of our do-it-yourself homestudy kit; "A Safe Start For A Happy Ending"; and take Driver Education back into the home where it should start.

For in car, bus, truck, and semi-trailer behind the wheel instruction in all classes of licences you will find our rates very reasonable. Vehicles supplied for all classes of tests.
