SPECIAL RATES FOR CALGARY

WHAT YOU SHOULD KNOW BEFORE CHOOSING A MOVE

WHAT SHOULD YOUR LONG DISTANCE MOVE COST? The cost of a long distance move is based on the weight of your shipment. In order to know the cost of your move, you must know the approximate weight of your shipment. An honest estimate by your mover prior to pick-up will provide you with this information. At the same time, he can tell you the approximate cost of having your breakables or other special items packed by the company, if you wish this service. Careful, accurate estimates are cheerfully given without obligation by our trained moving estimators. In long distance moving, arrangements must usually be made in advance so that when your shipment is loaded and ready to travel, you too, are free to travel. This is the reason it is important to know when your shipment will be picked up at your residence. A delay can mean unnecessary inconvenience for you and your family. If you are moving long distance we offer you our "Guaranteed Move". Won't you call us at

478-4655

WHAT ABOUT STORAGE? Your storage rate is based on the amount you store. Our modern fireproof warehouse offers the very finest facility available. Each item is individually wrapped and padded before it is placed in Seal-A-Vault containers especially designed for your possessions. Planning on Storage? Won't you call us at

478-4655

WHAT SHOULD YOUR LOCAL MOVE COST? The cost of a local move is based on time. Experience and efficiency combined with the proper equipment will give you the best and most economical move. Our men are trained and experienced, and have gained the reputation of being hard working and efficient movers. We always send equipment which is more than adequate to hold all your possessions with plenty of room to spare so that no time is lost in loading. If you are moving locally. Won't you call us at

478-4655

WHAT CAN AN OVERSEAS MOVE COST? The specialist on overseas packaging builds a container to transport the shipment ensuring that maximum density is obtained during the loading. The cost of surface freight to Europe and other parts of the world is largely based on the cubic contents of the shipment. It takes an expert with years of experience to safely pack and economically ship your effects overseas. For a free estimate on surface or air shipments. Won't you call us at
