Don't forget to plan for concealed telephone conduit and convenient locations for telephone outlets when you build your new home. These built-in telephone facilities add real value to a home yet their cost is very small if they are installed during construction.

It's easier to understand and jot down numbers too, if they are spoken in sequence with pauses between groups of numerals. For instance, in reading aloud the telephone number of our business office, we would say, Two two four (pause) six two, six one."

### 4 GOOD REASONS FOR HANDLING COMPLAINTS BY LONG DISTANCE

You can talk over matters at once  
promptness often prevents loss of a  
customer.

You can build closer relations with  
customers.

You can use tact in delicate situations.  
And because men talk more freely  
than they write, you can frequently  
trace the real reason for the com-  
plaint and prevent similar complaints  
in the future.

Telephone calls used to be a scream  
 but today, a normal voice  
 will do. The difference is improved  
 transmission - better ways to get your  
 voice from here to there. Simply  
 talk in a normal tone of voice into  
 the receiver and your words will go a  
 long way.
