Calling 9-1-1

Each year, in Canada, over three million calls are made to emergency services by cell phone Samaritans. When calling 9-1-1 in an emergency situation, here are some tips to keep in mind:

1. Advise the operator you are speaking on a cell phone.
2. Give the operator your 10-digit cell phone number, along with your full name.
3. Provide your exact location. If you don't know the exact location of the incident, try to mention landmarks or highway signs in the area.
4. Stay on the line until the operator says it is ok to hang up.
5. After you've hung up, leave your cell phone on in case the operator needs to call you back.

 Use It Daily

Don't open your door to
 strangers! When someone
 claims to work for the
 phone company,
 ask for identification.
 For your safety,
 TELUS employees
 are required to carry
 a card that tells you
 exactly who they are.

Remember, to the caller there
 is no such thing as an unimpor-
 tant telephone call. Otherwise,
 he wouldn't have taken the time
 and trouble to call you in the
 first place.

4 GOOD REASONS FOR HANDLING COMPLAINTS BY LONG DISTANCE

You can talk over matters at once. Promptness often prevents loss of a customer.

You can build closer relations with customers.

You can use tact in delicate situations. And because people talk more freely than they write, you can frequently trace the real reason for the complaint and prevent similar complaints in the future.

Debt Negotiation...

When your debts exceed your ability to pay, you may want to try direct negotiation with your creditor to have your payments or interest rates lowered. This may appeal to creditors, rather than them risking a percentage of recovery on a declaration of bankruptcy.
