Alberta Injury Lawyers

WE HANDLE ALL ACCIDENT CLAIMS

\$5,200,000 - Spinal cord injury (quadriplegia) resulting from single vehicle rollover. *(To our knowledge this is the largest SCI settlement ever achieved in Alberta.)*

\$3,800,000 - Traumatic brain injury resulting from accident caused by drunk driver. *(To our knowledge this is the largest TBI settlement ever achieved in Alberta.)*

\$1,200,000 - Wrongful death resulting from accident caused by drunk driver crossing center line.

WARNING: Do not be misled by lawyer ads claiming extremely large structured settlements which were achieved many years ago when interest rates were very high. For instance, the \$5.2 million lump-sum settlement noted in this ad could equate to a \$45 million structured settlement if we assume a very high interest rate and a 40 year payout. Such large structured settlements are no longer available due to today's very low interest rates.

INVOLVING INJURY OR LOSS OF LIFE

In addition to Alberta's leading spinal cord and brain injury settlements our professional legal team has established precedents in cases involving brain injury, whiplash, chronic pain, TMJ injury and fibromyalgia.

www.jmeshbrown.com

In 2005 a spinal cord injury changed my life forever. Paralyzed and on life support in intensive care, my family knew I would need professional legal help immediately. After interviewing several lawyers, they chose James H. Brown & Associates who, in addition to providing for my family's needs while I was hospitalized, assisted me financially & emotionally throughout my rehabilitation. Due to the professional legal representation of James H. Brown & Associates my case was resolved sooner than I expected leaving me with sufficient funds to provide for my lifelong needs.

CHARGED WITH IMPAIRED DRIVING? YOU NEED THE BEST DEFENCE POSSIBLE!

If you have been charged with impaired driving, you may have a defence. Under Canadian law, the consequences of a conviction will be both costly and devastating. Do not plead guilty before you talk to us.

Conviction for impaired driving, drive over 0.80, care or control, or refusal to provide a breath sample means the loss of your driver's license for at least one year, a criminal record and a minimum 300% increase in your motor vehicle insurance premiums. If your job involves driving, you may lose your livelihood.

IMPAIRED DRIVING?

If you can't afford to lose your driver's licence, call us. *We can help, guaranteed.*

Although a criminal record may have serious long term consequences, the biggest concern for many persons charged with impaired driving is the *automatic minimum 1 year license suspension* if convicted. If you need to drive to work and support your family, the loss of your licence is a heavy price to pay for an error in judgement.

That's where we come in. Impaired driving is one of the most technically complicated areas of criminal law and we know it inside and out. We have *successfully defended thousands of persons charged with impaired driving over the last 22 years*, and we currently defend over *300 impaired driving cases each year*. Other lawyers call us for advice on their cases and many of our clients are referred to us by lawyers or other people in the criminal justice system.

Our fees are expensive, but you get what you pay for. We are so confident we can help you that we offer a *money back guarantee - if you are not happy with the result we will give you back your money*. No questions asked. That way, you know we will do our very best for you, because nobody likes to work for free.

Check out our website at www.roadlawyers.ca or call us for a free consultation: *We can help, guaranteed.*
