*Let us show you
how modern
communications
can make money
for your business*

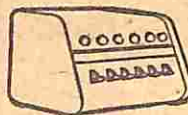

Whether it's a message across the office or across the country, successful business transactions depend on the speed with which instructions are received and implemented. Don't handicap your office and sales staff with obsolete communications. We supply a wide variety of equipment,

suitable for any size business—a partial selection is shown below. One of our representatives would be glad to show you how modern communications can help you build an even more profitable business. Just call our Business Office.

ELECTRONIC SECRETARY

Answers your phone with a recorded message; asks the caller to leave his message, then records reply. This small, compact unit is ideal for most offices; enables them to offer 24-hour service.

SECRETARIAL ANSWERING UNITS

To speed calls and avoid calls going astray, you'll find these extremely useful. When required, one person can answer up to ten designated phones in a single department of your business.

TELETYPE

Provides instant and accurate inter-city type-written communication between branch offices. Large or small firms find Teletype indispensable for production control, shipping control, sales reports, etc.

KEY PHONES

Can be used to make and receive calls over more than one line. A call on one line can be held while another is answered.

PBX

Private Branch Exchange. Available in capacities from 10 local lines and three trunks to custom equipment providing hundreds of locals and many trunks. Eliminates walking from office to office; essential for smooth control of incoming and outgoing calls.

I.D.P.

Integrated Data Processing. IDP is automation of paper work—an advanced system combining the speed and efficiency of Teletype, leased lines and modern business machines. The time your clerical staff saves can more than pay for the cost of the system.

LOUD-SPEAKING TELEPHONE

Enables user to move about the room or take notes, and talk on the phone at the same time. Operates by miniature microphone and small loud-speaker. Perfect for local or long distance conference calls. Converts instantly to conventional telephone.

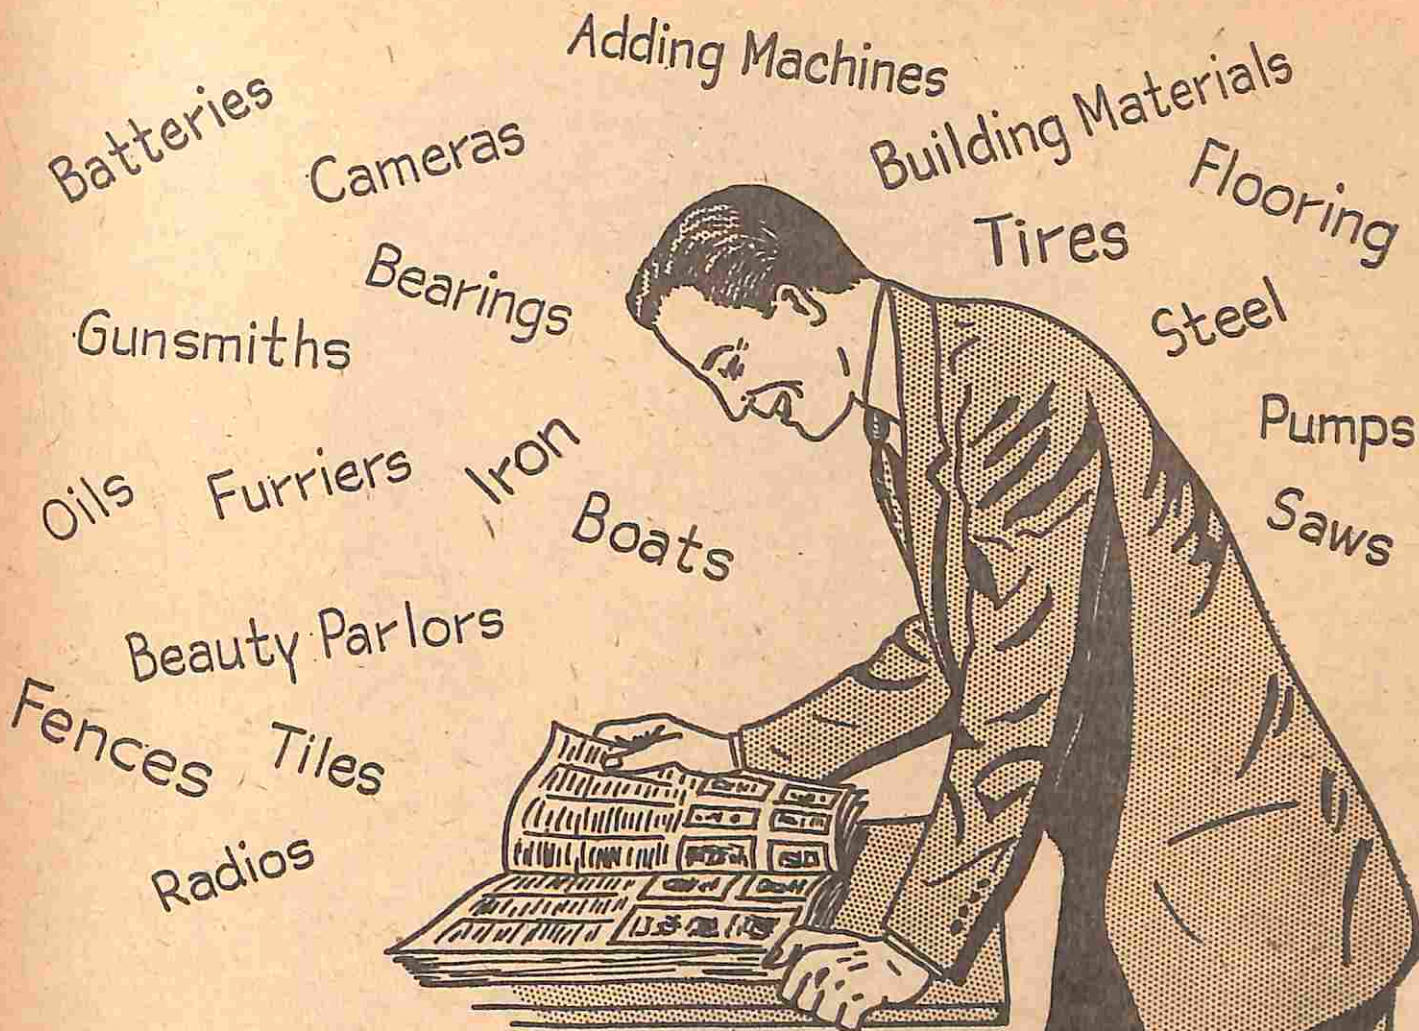

CALL COLLECT AND ZENITH SERVICES

Subscribing to these Long Distance services is like establishing branch offices at low cost. They enable out-of-town customers to call you by Long Distance, to order or get information, at no cost to them. Both are proven ways to build sales and goodwill.
